#### PROFESSIONAL SUMMARY

Hello! I'm Franz Jenard Dig, a 2nd-year BSIT student exploring the ever-evolving world of technology. My journey in the field of Information Technology began with a genuine curiosity about how things work in the digital realm. When I'm not immersed in the world of bits and bytes, you can find me playing mobile games, enjoying a cup of coffee, or indulging myself with lots of tasty foods. Let's connect and explore the exciting possibilities that the world of IT has to offer!
